## "Knowledge sets us free, art sets us free. A great library is freedom." - Ursula K. Le Guin

Since moving into our new space in the spring of 2015, we have renovated our classrooms, bathrooms and kitchens, and now it's time to improve our Media Center, and *we need your help!*

Your donation will directly support improvements to our students' access to technology with a new computer lab and a SMARTboard interactive whiteboard as well as help expand our library collection.

### What GCCS Needs:

As part of our Media Center Improvement Plan, GCCS intends to expand its library collection and introduce new

technology to our staff, students, and families.

- The computer lab will function as an important technological resource for our school community, and allow us to provide computer literacy instruction, facilitate independent research projects, programming classes and parent workshops.
- A SMARTboard will allow teachers to lead interactive instruction, engage visual, kinesthetic, and auditory learners simultaneously, and facilitate inclusive communication and collaboration between students and teachers.
- We are also expanding our Media Center's library collection by adding more books!

By helping us introduce this technology to our school you will be providing 21st century tools that facilitate learning and empower our students, staff, and families to engage our learning community in new ways.

## About the Walk

Lupus is the least known major disease of our day. Those with the disease struggle with a multitude of changing symptoms, pain, and not knowing what is happening to them, for an average of five years, before even being diagnosed. Imagine waiting for anything for 5 years, let alone an answer to what's hurting you! What's more, lupus affects each person differently, making the lupus journey a very lonely path.

The 2017 Walk to Shine the Light on Lupus is more than a fundraiser. It is a pledge to nearly 13,000 North Eastern New Yorkers that they are not alone. We are walking with and for them, to provide the help and hope they need to be strong and to live their best lives. We are advocating, raising awareness and funding research for earlier detection, better treatment and, ultimately, a cure.

Your contribution will help provide vital resources, new patient orientations and support group meetings, free of charge, for lupus patients and their loved ones. With your help, we can shine the light on lupus and light their path.
